

HORSELL
Technology

Software as a Service (SaaS) WEB-BASED APPLICATIONS (PROCUREMENT)

About Us

Founded in 2021 and part of the Horsell group (operating since 2007), a 100% Australian, family and veteran owned technology business.

We assist buyers and sellers to make better procurement decisions primarily between government and industry.

Our Mission

To solve problems and deliver solutions for our customers.

Our Vision

Make complex simple.

A lot of companies try to introduce complexity because this increases billable opportunities...

- they make it about them.

In contrast, we believe in transparency and the sharing of knowledge and expertise and making complex simple...

- we make it about you.

Agent VFM (vfm.ai)

Achieve Value For Money decisions in minutes. Tender evaluation with fast, informed choices, saving time and money.

Bid or No Bid (bidornobid.com)

Make fast, informed Bid or No Bid decisions. Evaluate RfX fit to your company in minutes, saving time and money.

RateMyTender (ratemytender.com.au)

Tendering is time-consuming, costly, and uncertain. Sellers give feedback to buyers, helping streamline processes saving time and money for both parties.

templatebot (templatebot.com.au)

Streamline procurement document automation, offering scalable, customisable solutions for rapid, accurate, and collaborative tender creation.

Resume Match Mate (resumematchmate.com)

Tailor resumes to job descriptions in minutes with AI-driven technology from Resume Match Mate, built for Labour Hire. Save time and submit faster.

Plus... custom AI/ML applications

Custom AI/ML applications tailored to your unique business or project needs, delivering bespoke solutions for enhanced performance and efficiency.
