

HORSELL
make complex simple

Publications Development

**Australian
Defence Industry
Specialists**

Our experience

We have successfully delivered the following to our customers:

- Electrical, Mechanical Engineering Instructions (EMEI)
- Repair Parts Identification Lists (RPILs)
- Repair Parts Scales (RPSs)
- User handbooks (UHB)
- Maintenance manuals
- Tabulated data charts
- Product identification lists
- Training materials and aids
- Complex colour-rendered 3D graphics
- ASDEFCON Publications Packages (DID-ILS-TDATA-PUBPACK)

S1000D IETPs with Xignal

In 2023, Horsell adopted Xignal's S1000D Suite to develop or convert publications to the S1000D / DEF(AUST)IPS-5630 specification to meet Defence and related industry requirements at a fraction of the time and price of other publication providers.

Technical Authoring

Precise, clear, and comprehensive technical documentation tailored to your needs.

Illustrations

Visual clarity through detailed, accurate illustrations that enhance understanding.

Publishing

Your documents are expertly formatted, professionally presented, and delivered on time.

Quality Assurance

Compliant to standards and specifications with meticulous reviews against requirements.

Developing with Computer Vision and AI

AI-driven fast, accurate, and compliant pubs with a chat-bot interface to find the detail that you need.
